As we have an ageing congregation it is inevitable that we experience hearing problems. We do want to hear what you have to say so please speak into the microphone on the top. It needs to be held at a 45degree angle away from your body so that the microphone is in the correct direct to pick up your voice the mostly efficiently. Hold it close to your mouth please. The sound desk will moderate the volume.

This message comes from someone who would love to hear more of what you have to say.
